MEMORANDUM FOR: The Record

SUBJECT : [] - Dual Compensation 25X1

25X1

1. After checking with Security [] I contacted the General Counsel of USIA who in turn put me in touch with Tom Roderick of the General Counsel's Office. I asked about the [] dual compensation question without mentioning a name. Mr. Roderick told me that USIA has considered this question before, that is, the question whether, under the dual compensation statutes employees of other agencies could be hired by USIA under their "service contract" procedure. They had answered this in the affirmative except in those cases where the work of the employee with the original agency is substantially the same as that with USIA. USIA is therefore interested in being told the duties of such employees with their home agency and, needless to say, the fact that these people are employees of another agency. The General Counsel's Office is now considering a provision to include in their contracts which would require the employee to furnish this information. It was not clear just how much of this type is furnished under present contracts.

2. I called [] and told him, along the lines of our earlier memorandum concerning his case, that we have no legal objection to his accepting the projected USIA offer (in which he is to be on a contract fee arrangement whereby he is compensated a certain amount per each 15-minute broadcast which he prepares). I also told [] of the USIA interest in learning whether or not a new contact employee is an employee of another agency and the nature of his duties with that agency. On these points he should consult with []. I requested him also to let us see a copy of his contract either before or after signature.
